## OVERVIEW

As a Senior Android and Full stack developer with over 10 years of professional experience. I focus on Android applications and their integration with the back end. Therefore, commitment to collaborative problem-solving, obeying Clean Code, Scrum, Clean Architecture, TDD, BDD, writing tests, and creating quality products is essential. I also train and guide staff and code review their code. I am skilled in Java, Kotlin, C#, and React. I work in an agile team and I constantly strive to learn new technologies to upgrade myself.
